ABOUT ME

Results-driven Engineering Manager with over 14 years of experience in software development, specializing in scalable architecture, performance optimization, and cross-functional team leadership. Proven expertise in scaling applications to support millions of users, optimizing cloud-native infrastructures, and leading high-performance engineering teams. Expert in CI/CD pipelines, DevOps automation, and secure software development practices.

WORK EXPERIENCE

Apr 2025 - Present

Technical Program Manager

Wissen Infotech | Bangalore

- Managed 3 concurrent projects as Program Manager, ensuring delivery within scope, budget, and timelines.
- Led a cross-functional team of 15 software engineers and 8 QA engineers across multiple workstreams.
- Oversaw project planning, prioritization, and stakeholder communication, aligning delivery with business objectives.
- Drove process improvements, risk mitigation, and effective resource allocation to maximize team productivity.
- Coordinated with leadership and client teams to track KPIs, resolve dependencies, and ensure seamless releases.

Jan 2023 - May 2024

Technical Lead/Manager

Idexcel Technologies Pvt. Ltd.

- Led a team of 28, including DevOps, in a FinTech product company, driving the development of an asset-based lending platform.
- Implemented scalable architectures that supported a 30% increase in transaction volume within six months.
- Improved system scalability and reliability, handling a 5x increase in traffic without downtime.
- Architected and optimized high-traffic systems, reducing cloud costs by 25% through efficient resource allocation.
- Reduced deployment time by 25% through the optimization of CI/CD pipelines.

Jun 2021 - Jun 2022

Team Lead

Fountain & TringApps Research Labs Pvt. Ltd.

- Led a team of 18 for a Corporate Job Portal Product Company, focusing on hiring applications for hourly workers.
- Improved application performance by 20% through code optimization and database tuning.
- Successfully delivered key features that increased user engagement by 15%.

Feb 2020 - May 2021

Project Lead

Guide House

- Led a team of 12 for a FinTech Product, developing the RevApp for insurance, hospital, and bank communication.
- Improved system reliability by 35% by implementing robust error handling and monitoring solutions.

- Migrated legacy monolith to microservices, achieving 40% faster data retrieval and reduced downtime.

Aug 2019 - Jan 2020

Flight Team Lead

Goomo Holdings

- Led a team of 10 for a Flight Online Booking Product Company, focusing on the online ticket booking system.
- Increased booking efficiency by 20% through the optimization of the booking process.

Apr 2018 - Aug 2019

Senior Tech Lead

Webnish Software

- Led a team of 22 for an Online Media and Website Builder Product Company.
- Scaled online flight booking system, optimizing database queries for a 50% faster response time.
- Improved server architecture, reducing infrastructure costs by 20%.
- Improved code quality by 30% by implementing code review processes and coding standards.

Mar 2017 - Apr 2018

Principal Software Engineer

Accion Labs

Contributed to projects for OwlInvest, 1docWay, and MCAProtect.

Dec 2015 - Feb 2017

Senior Software Engineer

AMP e-Technologies

Worked on University Halo and AMP (Asset Management Platform) projects.

Sep 2012 - Dec 2015

Software Engineer

Kreatio Applications Pvt Ltd

Contributed to CMS projects.

Jan 2011 - Sep 2012

Software Engineer

Srishti Softwares Pvt Ltd

Contributed to Healthcare Solutions projects.

NOTABLE ACHIEVEMENTS

- 🏆 Led cross-functional teams of up to 28 members, driving Agile transformations and improving delivery efficiency.
- 🏆 Improved system efficiency by 40%, reduced latency by 60%, and optimized infrastructure costs by 30% through performance tuning initiatives.
- 🏆 Architected scalable architectures supporting a 30% increase in transaction volume and handling a 5x traffic increase without downtime.

- 🔗 Migrated legacy monolith to microservices, achieving 40% faster data retrieval and reduced downtime.

ACCOMPLISHMENTS

Certifications

- **AWS Certified Solutions Architect** - Amazon Web Services
- **Generative AI Overview for Project Managers**
- **The Basics of Scrum**
- **Introduction Basics of Disciplined Agile**
- **Certificate Of Completion Become an AI Powered Product Manager**
- **Project Management course**

Awards

- **Dhronacharya Award** - Webnish Software
- **Team Leader Excellence Award** - AMP e-Technologies
